About Stratacomm

Stratacomm has a nearly two decade history of assisting a wide variety of government agencies in harnessing the power of communications to educate, persuade and motivate target audiences. Whether on the Federal, state or local level, a myriad of government clients count on us to deliver top-notch, full-service communications support.

Our firm works with government leaders to create and implement strategic communications campaigns that engage citizens, stakeholders, employees and other audiences. Whether we are working on small, short-term projects or large, multi-year campaigns, we provide outstanding value in exchange for the privilege of serving the public good through our government work.

Big-Agency Range, Small Business Focus

While offering the full-service performance of a large agency, Stratacomm is proud to keep a laser focus on the key to our success: Specialized attention on our clients' priorities and goals. As an independently owned and operated small business, government decision-makers can feel secure in knowing that we provide the full gamut of communications service offerings.

Keen Understanding of Government Communications

Because several Stratacomm partners have themselves served as government communicators, we have a firm grasp on how public affairs and outreach offices function. As a result, we are keenly adept at creating and implementing approaches that advance agencies' communications missions. Our roster of current and former government clients includes:

- U.S. Department of Energy
- U.S. Environmental Protection Administration
- Federal Railroad Administration
- National Highway Traffic Safety Administration
- Federal Motor Carrier Safety Administration
- U.S. Consumer Product Safety
- Defense Advanced Research Projects Agency
- National Cancer Institute
- National Renewable Energy Laboratory
- District of Columbia Department of Transportation

Since 2008, Stratacomm's work has been recognized with nearly three dozen major awards for services ranging from media relations, to website and video production, to creative design and event logistics. The awards include the Telly, the Davey, the Communicator and the Sabre, as well as high honors from the Public Relations Society of America (PRSA) and its local chapters. We are particularly proud to have received the prestigious Silver Anvil award – PRSA's top honor recognizing the very finest communications campaigns – for our work supporting the U.S. Department of Energy Solar Decathlon.

The Service Contract Act (SCA) is applicable to this contract and as it applies to the entire Professional Services Schedule and all services provided. While no specific labor categories have been identified as being subject to SCA due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CFR 541.300), this contract still maintains the provisions and protections for SCA eligible labor categories. If and/or when the Contractor adds SCA labor categories / employees to the contract through the modification process, the Contractor must inform the Contracting Officer and establish a SCA matrix identifying the GSA labor category titles, the occupational code, SCA labor category titles and applicable wage determination (WD) number. Failure to do so may result in cancellation of the contract.
